Sparkadia release the animal

12 November 2007

Sydney band Sparkadia has signed a new label deal that will see their debut album released next year.

The four-piece has signed with Ivy League Records, home to artists such as Josh Pyke, Youth Group and The Vines.

Sparkadia are expected to release their debut album, Postcards, mid way through 2008.

The band recorded the album at London's Miloco Studios with producer Ben Hillier (Doves, Elbow, Blur, Depeche Mode). They were invited to record in the UK London-based label Ark Recordings who signed the band.

The records gave birth to latest single Animals, and saw Sparkadia head out on their first UK tour in support of Irish band, The Thrills.

Sparkadia has released their single, Animals, to their myspace page, [found here](#).

Sparkadia's debut album 'Postcards' is set for release in mid 2008.
